In connection with the petition to the House of Commons praying for a reform in the constitution of the Hongkong Legislative Council the question has been raised merial roub in the Shaukiwan cometery. whether the Chinese should be canyassed for signatures. The opinions of the promoters of the inovement are, we understand, divided on this point. The general wish of the British community, how ver, will, we think, be against canvassing. The Chinese would no doubt sign in large numbers if French official Grosgurin, is openly proclaimed asked they would be equally ready to sign a petition in a contrary sense, extolling the One of the clauses of the Treaty enacia that present bureaucratic system of Government the Sismese shall hand over to the French and praying that no change might be made ject; who was kidnapped or taken prisoner by in it. We fully recognise the importance of correctly ascertaining and giving due consideration to the views of the native community in the administration of the Government and have more than once advocated that some means should be in that direction must be made guardedly and stop far short of conceding to the Chinesea franchise which would enable them to swamp the British community at the elections. The probability is that in ordinary times the Chinese would take no interest in the elections, but if the franchise were conthe full amount allowed for Packages and ferred a word from the guilds at any critical time would be sufficient to bring them to the poll in full force to elect the candidates they were told to. The petition now before the public is really a petition for the enfranchiscment of the British residents, not the Chinese, and it would be a mistake, we think

THE PLAGUE AT CANTON.

ALARM IN HONGEONG. The postilential disease, or plague as it is called Canton, appears to become worse and worse in Bingapore and wild. The only other point day by day. . this new spreading to Honam and he wished to call at tion to was concern-Fatshan, where, ulthough not many fatal one is have been reported, the inhabitants are in a very the directors views on the subject; and alarmed state of mind. The authorities have is the directors would like to have an indicasaid proclamations prohibiting the slaughter of tion from some of the large shareholders as to pigs, and on the 7th inst another notice was also whether the shareholders would like the return posted up in the streets prohibiting even the holders would like to leave the matter in the capture of fish. Processions with josses are bands of the directors to decide. With those restill parading the streets, day and night and marks he proposed that the report and accounts ernokers, sandal-wood, and joss-aticks are to be burnt in every house all the time with the intention of getting rid of the visitation. The disease is regarded as not only dangerous to those who live in the city but also a peril to those who are visiting the place. From nutive sources we learn that in some cases people have been found deed whilst being carried in chales in the streets. The stock of coffins is now near exhausted, and the undertakers are working day and night to meet the demand.

The Chung Ngot San Po relates the following of a portion of the capital. thief broke into the house with a view to rob the girl but as soon as he stepped lute it the latter offered him some money and asked him to buy coffine for her deceased relatives, saying that he would fulfil the errand she would allow bim to take away all be liked. The man promised and left the house with the money. But on his return he found the girl had also died, and he legan to gather together the valuables in the house, but ru the course of this he suddenly fell always an opportunity of bringing up the matter down and expired.

The native community of this colony seem to be in a condition of increasing alarm and fear. and application has been made to the Registrar-General for permission to indulge in "just pid gin" to day with a view of averting what h beliaved to be an imminent visitation of the Canton plague. Many rumonrs of an alarmist character were in circulation yesterday. We heard that forty deaths from the diseaso, as described from Canton, had occurred in Taipingshan during 48 hours, that in Tank Laus one whole family had died suddenly from fever and disentery and that many hones had been abandoned by people, who had left for their native villages. On enquiry at the Registrar-General's department, bowever, we find that no anspicious denthe have been reported and that no information has been received although enquiries were made which justifies any apprehension that an epidemic is likely to break

THE INTERPORT RIFLE MATCH.

The Shanghai Youm fired on the 4th inst. and only succeeded in making a total of 760 points against 823 and 817 made by Hongkong and Singupore respectively. This poor result is probibly attributable chiefly to the sudden change of the climatic gonditions, under which the train shot the marning being very hot with a strong glaring light, whilst practice has been going on with dall camy mornings prevailing. Or completion of the firing at the 500 yards range, it was syident that the team would have to shoot their being in a harry. > JELEBU MINING AND TRADING COMPANY, LIMITED.

The ninth ordinary general meeting of the lelebu Mining and Trading Company, Limited was held at Singapore on the 3rd inst., the business being to receive the directors report and accounts for the half-year, ending 6th February, 1894 Mr. J. P. Jonquim, Uhairman of the Company, presided.

The SECRETARY read the notice convening the meeting. The minutes of the last meeting were read and confirmed.

The CHAIRMAN said that the meeting was the ninth ordinary gor eral meeting of the sharebolders of the company and as the report and accounts had been in the shareholders' bands according to the prescribed terms, he would, with their permission, take them as read. The report went very fully into every detail of the working of the Company; and he had very little to add. He would, however, like to call the attention of the shareholders to the paragraph in the accounts that stated that "all the ore and tin have since been sold and delivered (with the exception of 525 pionis pre) and the valuation is based on the proceeds," Those 525 piculs had, with the exception of, he thought, 30 picula, been received. They had in one paragraph of the report of 32 from the capital, or whether the shareof the directors be adopted.

Mr. NATHAN seconded. As there appeared to be no shareho'der who lesired to speak on the point the Chairman had alinded to, re the repayment of capital, the Chairmin pointed out, at Mr. Anderson's suggestion, that the directors would like to hear some expres-

Mr. REID said there were several shareholders present who might tell the directors whether they preferred two dollars a share to be returned or otherwise. There was not perhaps a sufficient body of shareholders present to make advice on that point conclusive, but the directors would ike to have some advice. Mr. ANDERSOY pointed out that there was

holders would agree that a very satisfectory report had been presented, and that a very substantial sum had been set aside as a reserve fund. A good dividend had been pard and a fairly large balance been carried over from the last ball year's undivided profits. Moreover, those who looked would see that the directors carried on the business of the Company on yerr prudent and satisfactory lines. The accounts of the Company were in a very favourable and satisfactory condition. Under those cirdunstances he proposed that an amount should be not eside from the undivided pr fits to be applied as a bonus to the directors now serving. with the approval of the shareholders. He Mr. B. Ruttunies in his weekly share report begged to propose that " a sum of \$1,000 be set aside from the accounts as a bonus for division among the directors." Mr. M. P. JOAQUIM seconded.

Mr. NATHAN supported the motion, which The CHATRMAN on behalf of the directors thanked the shareholders for the handsome manner in which they had treated the directors. The shareholders might be perfectly sure that the directors had the interests of the Company at heart, and would continue always to have so-: and he trusted they would be able to present such favourable accounts at every meeting. The CHAIRSTAN formally proposed the pay-

ment of a dividend of tem per cent; accoudly. that the sum of \$15,000 be added to the reserve fund, and that the balance be parried forward. r. NATHAN acconded and it was agreed. Mr. REID said the shareholders would observe

Baron von Secken-dorff and Colonel Wognek replied for the guests, Mr. Tulloob, in a capital speech tossied the ladies, and some very droll fun, viz., the intrasion of the irrepressible town band, enhanced. Mr. Tulloob's efforts, although it somewhat marred his percention; and the ladies found a really eloquent exponent in Mr. Aglen who is to be heartly congratulated on a first rate maiden speech. The banquet was marked by a happy innovation (locally) in the form of a tonatmaster: this important office fell to Mr. A. W. H. Bellingham, who performed it with a dignity, and aplomb all his own.

Dock marks, namely the great shear legs which have for a good many years dominated the lower bond. They were taken down quickly and akilfully on Wednesday last; the local rivers now looks quite neked. Their legitimate employmont was about as frequent as an angel's visit; for a long time their chief function bas been to give w bird's eve view of the reaches of the river to the inquisitive ocolies, who by mounting the near leg could see where an incoming steamer was. But as the towers of the Town Hall now give an ensign and better view to the steamer agents when they are curious about their vessels, the poor shears were at a discount even for this humble task.
